

Metro Diagnostics Laboratory

Laboratory Report · Demo only — synthetic data, not medical advice. No real PHI.

Patient: Rahul Sharma	MRN: RH-4471	DOB: 1974-02-03
-----------------------	--------------	-----------------

Specimen collected: 2025-12-04. Reported: 2025-12-05. Ordering: Dr. R. Mehta.

Test	Result	Units	Reference range	Flag
HbA1c	8.6	%	< 7.0	HIGH
Creatinine	1.6	mg/dL	0.7 – 1.3	HIGH
eGFR	52	mL/min/1.73m2	> 60	LOW
LDL cholesterol	165	mg/dL	< 100	HIGH

Interpretation

HbA1c remains elevated and has risen versus prior results. Creatinine is elevated with reduced eGFR — recommend nephrology review and repeat renal function.
